Mohammad Abdul Ahad

Senior Software Engineer

maahad.767@gmail.com | +880 1828-442772 | github.com/maahad767 | linkedin.com/in/maahad767 | Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Senior Software Engineer with 5+ years of experience building scalable backend systems, leading development teams, and delivering production-grade applications. Specialized in Python/Django ecosystem with expertise in FastAPI, cloud infrastructure (AWS, GCP), and AI/ML. Employee of the Quarter for leading two live products with growing user bases. Experienced mentor and university lecturer.

TECHNICAL SKILLS

Languages: Python, JavaScript/NodeJS, Go, Java
Frontend: React, Vanilla JavaScript
Backend: Django, DRF, Django Ninja, FastAPI, NestJS, Celery
Practices: Agile, TDD, CI/CD
Databases: PostgreSQL, MySQL, MongoDB, Redis, ElasticSearch
Cloud/DevOps: AWS, GCP, Docker, Kubernetes, AWS CDK, GitHub Actions, Kafka
AI/ML: Pandas, Scikit-learn, Deep Learning, LLM, OpenAI, YOLO, FaceNet, Google Colab, Vertex AI

PROFESSIONAL EXPERIENCE

Brain Station 23 PLC — Dhaka, Bangladesh

Senior Software Engineer — Jul 2024 — Present
Software Engineer — Jan 2024 — Jun 2024
Associate Software Engineer — May 2022 — Dec 2023

- Designed architecture and led backend for BL Power — retailer airtime sales platform with campaigns, offers, and commission management (DRF, MySQL, RabbitMQ, Redis, Docker)
- Developed BL Wallet — centralized, fault-tolerant wallet service (Django Ninja, master-slave MySQL, RabbitMQ, Celery)
- Built BL Backend Utilities: ETL pipelines, Notification Engine (Kafka + CleverTap), Object Uploader (FastAPI + S3); migrated 40M records in 1hr (460GB to 30GB); optimized uploads from 6hrs to 15min
- Designed Searchify — dynamic content search platform (FastAPI, Elasticsearch, OpenAI, React CMS)
- Selected as Employee of the Quarter in 2024 for outstanding contribution and leadership
- Contributed to JIC (Django, Celery, AWS), Tracker23 (NestJS, PostgreSQL, Prisma), Miza Fintech (DRF)

Turing — Remote (Part-time)

Software Engineer, Python — Mar 2024 — Dec 2024

- Evaluated and improved AI-generated code quality; solved complex coding challenges to enhance large language model capabilities

BRAC University — Dhaka, Bangladesh

Lecturer, Contractual — Sep 2023 — Jan 2024

- Delivered lectures as industry expert in CSE department | Student Tutor — mentored undergraduates (Jun 2021 — May 2022)

Makebell — Remote (Hong Kong, China)

Software Engineer — Sep 2021 — Apr 2022

- Built Ricciwawa backend — social media app with auto-caption, STT, TTS (DRF, GCP: GAE, Cloud SQL, Speech API, Elastic Search)

Tickets4Travel — Dhaka, Bangladesh

Junior Software Engineer — Apr 2021 — Sep 2021

- Designed ridesharing backend with geometric DB queries and custom ride-assigning algorithm (DRF, Django Channels, AWS)

Digiden — Dhaka, Bangladesh

Intern Software Engineer — Nov 2020 — Apr 2021

- Built investment and inventory management system — investors directly own inventories and receive profit shares (fullstack Django, PostgreSQL, Celery, Heroku)

KEY PROJECTS

Searchify | Full Stack Developer | Live

Dynamic content search and onboarding platform for Banglalink with AI-powered content enrichment. Built a React CMS for non-technical content managers and an intelligent search API.

FastAPI, Elasticsearch, OpenAI, React, Docker

BL Power | Backend Lead | Live
Retailer airtime sales platform serving thousands of retailers with campaign management, commission tracking, and real-time offer distribution. Integrated with Paywall Plus, IAM, BL Wallet, and SMS services.
DRF, MySQL, RabbitMQ, Redis, Docker, Nginx

BL Wallet | Backend Lead | Live
Centralized, fault-tolerant wallet service handling financial transactions across multiple Banglalink platforms with master-slave replication for high availability.
Django Ninja, MySQL (Master-Slave), RabbitMQ, Celery

IAB Portal | Full Stack Developer
Membership and event management portal for the Institute of Architects, Bangladesh with Odoo ERP integration and AmarPay payment gateway.
Django Ninja, PostgreSQL, GitHub Actions CI/CD, Odoo

Smart Home Assistant for Alzheimer's Care | Published
BSc thesis — ambient assisted living system using real-time object detection and face recognition to assist Alzheimer's patients. Created custom datasets for objects absent from ImageNet.
YOLOv4/v7, FaceNet, Deep Learning, Python

EDUCATION

BRAC University — Dhaka, Bangladesh
BSc in Computer Science & Engineering 2018 — 2022

- CGPA: 3.92 / 4.00 | Highest Distinction | VC's List | Dean's List | Merit-based Scholarship (Throughout)
- Thesis: "An Ambient Assisted Living System for Alzheimer's Patients" | Student Tutor (Jun 2021 — May 2022)

CERTIFICATIONS & MENTORSHIP

ACMP 4.0 — IBA, Dhaka University (2025) | **AWS ML Foundations** — Udacity (2022) | **ML on Google Cloud** — Coursera (2022)
Managing Jira Projects — Atlassian (2023)
Mentored multiple trainee batches at Brain Station 23 and Learnathon 3.0 | Guest Lecturer at BRAC University
